LibreTexts Directory

LibreTexts has 13 libraries which are free to access and use. Each library is organized into Campus Bookshelves for textbooks created and remixed by instructors for their curricula and students, community curated Bookshelves with textbooks for direct use and sources for remixing and learning objects for other materials curated in common.

**Biology**
- Introductory and General, Cell and Molecular, Biochemistry, Botany, Ecology, Evolutionary & Developmental, Genetics, Human Biology, Microbiology, BioTechnology, Computational Biology

**Business**
- Accounting, Business, Finance, Management, Marketing, Law

**Chemistry**
- Introductory, Conceptual and GOB, General, Organic, Inorganic, Analytical, Physical, Theoretical, Biological, Environmental

**Engineering**
- Aerospace, Biological, Chemical, Civil, Computer Science, Electrical, Environmental, Industrial & Systems, Introductory, Materials Science, Mechanical

**Español**
- Textbooks written in Spanish
